About Cognitive CoachingSM Research indicates that teaching is a complex intellectual activity and that teachers who think at higher levels produce students who are higher achieving, more cooperative, and better problem solvers. Behind Cognitive CoachingSM there is the belief that each of us has the resources to enable us to grow and change from within. Cognitive CoachingSM is a set of strategies, a way of thinking, and a way of working that invites self and others to shape and reshape their thinking and problem solving capacities. The coach is actually a mediator, one who figuratively stands between a person and his thinking to help him become more aware of what is going on inside his head.

About Paula Miller Paula brings 25 years of education experience to her role as Education Director for PEBC. She was a middle and high school Language Arts teacher, a staff developer for an urban district, a regional service center consultant, and a Language Arts director. She is a licensed secondary teacher and holds principal certification. She holds a BFA in English and Speech Communications from S.M.U., an M.Ed (Reading Specialist) from Murray State University, and received Principal Certification from post-graduate studies at T.C.U.
